Miss Shirtz
You're a little harsh
at times but I still
think you're the best study
hall teacher we have.
You're lucky you have the
freshmen second period or this study
hall really being a mess at the end
of the period.
Good Luck, and come back
next year.

Prophecy

Hi! Welcome to Westville High School. Step right into our laboratory. We have a date to see what the Seniors will be doing 10 years from now. We will use the newly invented W. H. S. time machine, courtesy of the Junior history class. Your guides will be Pat and Phil. We set the time dial for 1968 and away we go!

1958, '59, '60, '61, '62, '63, '64, '65, '66, '67, 1968, and here we are. We expect some really great things from this class, because its members were really out of this world.

There's a familiar face already. It looks like our old friend, Jim Watson.

"What have you been doing, Jim?"

"Well, Phil, I have been making interplanetary Studebaker ships with V-8 rockets.

"Are they very fast?"

"Well, not yet, but you can get asteroid dust in the second stage."

"Good-bye for now, and better luck on your newer models."

As we cruise down the airway, Westville Boulevard, in our heliomobile, we see another familiar face. Coming out of the Bowling Alley is Jerry Ransom.

"Hi, Jerry. What have you been doing in the past 10 years?"

"Hello, Pat and Phil. I have been testing automatic pinsetters."

"But Jerry, they had those things 10 years ago."

"Yes, I know, but that kind didn't play soft music to sleep by."

Moving on down the boulevard, we see the Miss Sandy School of Charm, with Sandra Prentiss as founder and president. We see by her advertising that girls can learn after school the important subjects of: "How to keep the boys guessing," and "How to go steady with 5 different boys at the same time."

As we enter the Bacon Body Shop across the street, we see the owner, Bob Bacon.

"How are you doing in life?"

"Oh, I am really getting a big bang out of it, Phil."

"Are you doing very well in this business, Bob?"

Yes, but hauling in my car every week for repair work is becoming quite expensive."

Down the boulevard we see the NA Beauty Salon, owned by Bonita Weisjohn. Coming out of the salon is a beautiful girl with Bonita's original hair fashion, the Green Martian Mop Cut.

As we fly past the new H. and H. Theater, we see that Judy Jupiter (Judy Jonas) has just received her twelfth Academy Award for her leading role in the movie "Give Me Those Wide Open Spaces" filmed on location in the first U. S. satellite, B. L. T. N.

We are now passing the Herod Transistor Radio Corporation owned by Bernie Herod. We have heard that he is becoming rich by selling radios. These radios are the size of a bean, and are for students uninterested in classes.

We see that the world wide celebrity, Guy Lumbago (Jim Coulter), with his "squealin' sax" and his band, The Offbeats, are playing the sweetest music this side of Hammond at the Golden Pans Nightclub.

We stop to buy the latest edition of the Westville Incinerator, edited by Russell Pscion, who just a year ago placed first in the mile run at the Olympics. His time was 2 minutes and 47 seconds.

Prophecy

In the headlines we read that two top scientific farmers, John Coulter and Jim Dudeck, have discovered a very new aspect in farming. They are growing shelled corn under glass bubbles on Mars.

As we glance through the paper, we see the world famous column by Carol Frazee called "Frazee Knitts Witt."

On the sports page, we see Ed Kaletha's picture. The scientific swatter has just won the finals in a ping-pong match against an eight armed Martian for the Ping-Pong Championship of the Universe.

As we fly on, we enter the W.H.S. Parking Lot and are stopped by a tall policeman.

"Hello, officer. Were we doing anything wrong?"

"Were you doing anything wrong? You know that the speed limit is 100 mph around here! Why, when I was a kid, I wouldn't have thought of speeding. We didn't do such things then (back in the good old days). Here is your ticket; see you in court."

Whew, some policeman. We are not sure, but that certainly looked like Louis Leitzan, chief of the Helio-mobile patrol.

As we start off again, we turn on the television in our heliomobile just in time to catch Buck's Bandstand with Leon Allen, the Speedy Spinner disk jockey, who spins nothing but 200 R.P.M. records.

"Well, kids, to wrap things up today, we spin the #3999 spot on WJJD's top 4000. It is the first record to sell a trillion copies, and it is coming up fast. Here it is the "Glockenspiel Rock" by Danny and the Seniors (better known as Dan Poston and the Mob).

Who should we see doing the commercial but Alice Firanek, advertising Brust, the tooth-paste you spray on to give you all day protection.

Next we meet Pat Krampikowski walking down the street.

"Hi, Pat! What have you been doing?"

"Hi, Pat and Phil. I am a plainclotheswoman for the Lady Friday Detective Agency, and I always get my man."

We hear that Jerry Hatton is now a math professor at M.I.T., and he and his student, Frankie Snoke, are working on the theory "Is Space Curved."

We read that Mickey Thomas, a noted physicist and up and coming pharmacist, has just invented a serum to prevent the dreaded disease, homework-itis.

As we leave Westville for Florida, we notice a young man coming down from a water tower. We recognize him to be Tony Potrzebowski. We find out that he is really getting up in this world. He tells us that he is hired by the Westville Lumber and Coal Company to paint water towers. That boy must have connections.

On our way to Florida, we have just enough traveling time to watch one television program. Should we watch "Life With Elizabeth" starring Elizabeth Bryant on Channel 13 or should we watch "Life Without Elizabeth," starring Bob Walker on Channel 13.5?

In Florida we go to the Weeki Wackee Springs to see the world famous underwater show. As we sit watching this spectacle, we recognize the three stars. The Three Mere Maids are Rita Petrowski, Sharon Shebel, and Jean Janas.

On our way back to Westville, we turn on the television in our heliomobile to a new program. Television has "Today," and "Tonight"

(Continued on page 67)

I, Bonita Weisjohn, will to Lorraine Dennett my naturally blond hair because variety is the spice of life.
I, Peggy Dunn, will to Joyce Wittey my ability to keep the boys guessing.
We, Tony Potrzebowski and James Dudeck, will to Bill Shippee a book of cartoons so that he won't have to overtax his imagination to draw pictures of the teachers.
We, Robert Bacon and Donald Olson, will to John Caddell our ability to disregard our school work and have fun.
We, the Senior class, will to Mr. Somsel an efficient yearbook staff so that he may have more free evenings next year.
We, the Senior class, will to Mr. Willis a whole year of good weather for his drivers training classes.
We, the Senior class, will to Mr. Blackburn a lucky basketball and an undefeated team.
We, the Senior class, will to Miss Schutz two cases of room deodorizer for her chemistry class.
We, the Senior class, will to Mr. Knoll an electronic eye to spot paper on the study hall floor.
We, the Senior class, will to Mrs. Rump a super duper husband finder so that she can keep track of Pete.
We, the Senior class, will to Miss Shirtz a driver's license to go with her car.
We, the Senior class, will to Mrs. Ethel Miller an oil drum for her daily gum collection.
We, the Senior class, will to Mr. Kruse a joke book to memorize so that he will have better jokes next year for fourth period study hall.
We, the Senior class, will to Mrs. Helen Miller a set of blocks to put under her car wheels so that it won't roll away.
We, the Senior Class, will to Mr. Snoke a cash register to keep the proceeds from candy sales in a safe place.
We, the Senior class, being the last class to graduate from the old high school building will to our underclassmen all of the good times and memories of our class and the classes before us.

The Blackhawks went this year without a win. Having a young squad, they are looking forward to a very tremendous season, in the near future when all varsity players will be returning.

The Blackhawk track team is looking forward to a very good season. The team will be handicapped with a young squad, with only a few experienced boys coming back. In the years to come we hope to see a great county contender.

The Junior High basketball team has gone thus far in the season without a loss. This is a really fine group of individuals and Westville can look forward to very great seasons in the near future.

The team was backed all the way by these fine cheerleaders. Without their backing the team might have failed. Left to right, these girls are: Betty Elliott, Nancy Spindler, Karen Boyd, and Sharon Klettke.

Prophecy

(Continued)

but this new program is called "Tomorrow" and it features Madame Betty (Oldham). She teaches the watchers to read tea leaves and palms.

As we read in the paper again, we see that Judy Hetman has been elected Miss Universe because of her outstanding beauty and her skill and ability to crack her gum.

We read that Don Olsen is a test driver for the Chevrolet Rocket Company and he is on his way to Venus to test a new rocket's ability to penetrate clouds.

Mr. and Mrs. Sebert are the proud parents of twin girls. They have named the girls Paula and Priscilla.

Peggy Dunn, who is now a registered nurse, is a special attendant to the first baby whale grown in captivity in Marineland, Florida.

We have seen what the Seniors will be doing 10 years from now, so we will return to the year 1958. We would like to wish the Seniors the best of luck in the future (they'll probably need it).

To Miss Shirtz
I think you are an awful nice teacher. Tell your "pets" I've got all the "riots" I've ever had in my first period study hall.
Lou Carter

(just kidding, you're a very nice lady).

To Miss Shirtz!
The sweetest, best dressed teacher I've ever known. You're really added a lot to this school. I'll miss you next year and I'll never forget you.
